HELP

BASICS | **TEAM SELECTION** | **POINTS AND RANKS**

How do Team Selections Work?

The teams are selected using a 'level of quality' number that is automatically assigned by the program to each position. A player will get a rating between 1 and 5 with 1 being the lowest and 5 being the highest.

Statistics:

Each player has an overall rating as well as an offensive and defensive rating. A complex algorithm is used to compare these stats using a player vs player method.

Positions:

Each player position is listed indicating their strongest stat:

GK - Goalkeeper Defensive	CDM - Central Defensive Midfielder Defensive	CB - Centre Back Defensive
CAM - Central Attacking Midfielder Offensive	ST - Striker Offensive
